

Semi-Automatic Heat Seal Shrink Wrap Machine

The Semi-Automatic Wrapping Shrinking Machine efficiently packs small packages together. It is suitable for packing bottles, cans, boxes, and jars.

General Overview

Professional Shrink Wrapping Solution

This semi-automatic heat seal shrink wrap machine is engineered for high-efficiency packaging of large or heavy items using PE, PVC, or POF films. It features advanced digital temperature controls and a specialized sealing mechanism that ensures firm, crack-free seals without material residue. Designed for durability and versatility, this system is ideal for industries ranging from beverage and food production to construction materials and household appliances.

Technical Specifications

Dimensions	L5050*W3300*H2100mm / 4700*4000*1700mm (Customizable)
Weight	1200 kg
Power Rating	30 KW
Voltage	220V/380V
Gas Pressure	0.6 Mpa

Performance Metrics

Capacity

2000 bph
Min Capacity

30000 bph
Max Capacity

Transport Speed	15 m/min
Max Tunnel Temperature	260 °C

Capability & Compliance

Certifications

CE • SGS • ISO

Applicable Industries

- Food & Beverage
- Household Appliances
- Construction Materials
- Ceramics
- Personal Care

Packaging Materials	PE, PVC, POF
