

# Semi-Automatic Liquid Filling Machine

This semi-automatic filling machine dispenses liquids into containers with precision. It features dual nozzles and adjustable volume settings to accommodate diverse production needs.

## Product Overview

### Precision Liquid Filling Solution

This semi-automatic quantitative filling machine is designed to deliver precise and efficient liquid filling across diverse industrial applications. Built with durable stainless steel, it ensures high hygiene standards suitable for pharmaceutical, cosmetic, and food production. The machine utilizes a dual-nozzle system that balances manual container handling with automated volumetric accuracy for consistent results.

## Technical Specifications

Machine Classification	Semi-automatic quantitative filling machine
Number of Nozzles	2
Material	Stainless Steel

## Application Suitability

### Industry Applications

- Food and Beverage
- Pharmaceuticals
- Cosmetics

### Recommended Production Scale

Small-scale • Medium-scale
