Product Overview

Versatile Packaging Solution

This semi-automatic strapping machine is engineered for securing PP belts around cases and carton boxes with precision and speed. It features a robust, mobile design equipped with wheels for easy integration into your existing packaging workflow. The system automatically handles tensioning, sealing, and cutting, providing a reliable and efficient way to secure shipments in various industrial applications.

Performance Metrics

Key Performance Metrics

400 N

Max Strapping Tension

0.53 Sec/Strap

Strapping Speed

0.2 KVA

Power Consumption

Technical Specifications

Strap Width	5-15mm
Power Supply Compatibility	110V, 220-240V, 50-60Hz

Physical Dimensions

Dimensions and Weight

Metric	Value
Machine Size	809 x 526 x 760mm
Machine Weight	67 kg
