

Semi-Electric Pallet Truck - 1500kg Capacity

This semi-electric pallet truck is a material handling solution for moving palletized goods. It combines manual steering with electric lifting, offering a 1500kg capacity and enhanced maneuverability.

Overview

Versatile Material Handling

This semi-electric pallet truck is engineered to enhance efficiency in warehouses and distribution centers by combining manual steering with electric power for lifting and transport. Designed for durability and maneuverability, the unit helps reduce operator fatigue while maintaining high productivity levels. With multiple configuration options, it provides a cost-effective and reliable solution for various load-handling requirements.

Technical Specifications

Key Performance Metrics

2000 kg

Max Load Capacity

5 km/h

Max Travel Speed

1000 W

Max Motor Power

Model Specifications

Model	Capacity	Motor	Battery
WPH-120E	1200kg	400W	2x12V/35Ah
WPH-160E	1600kg	700W	2x12V/55Ah
WPH-160A	1600kg	700W	2x12V/90Ah
WPH-200E	2000kg	1000W	2x12V/70Ah

Fork Height Range: 80mm to 200mm

Certifications & Features

Integrated Safety Features: Emergency Stop Button, Overload Protection, Ergonomic Controls, Electric Lift System
