Product Overview

Professional Grade Bi-Metal Utility

This folding knife utilizes advanced bi-metal technology and laser cladding carbide to deliver superior cutting performance. Designed for professionals who demand longevity and precision, the blade features a hardened edge for extended sharpness and a flexible body for durability. The lightweight aluminum handle ensures a secure grip, making it a reliable tool for demanding cutting tasks.

Technical Specifications

Maximum Edge Hardness	68 HRC
Standard Blade Edge Hardness	58 HRC
Blade Technology	Bi-metal, Laser Cladding Carbide, Serrated Edge
