

Serrated Stainless Steel Bread Knife

This bread knife features a long, serrated stainless steel blade. It is designed for slicing through bread cleanly and efficiently.

Product Overview

Professional Serrated Bread Knife

This high-quality bread knife features a long, serrated blade specifically engineered to slice through crusty breads and delicate pastries without crushing the interior. Constructed with durable stainless steel for the blade and a robust POM handle, it is designed to withstand the rigors of both busy family kitchens and professional culinary environments. Its ergonomic design and secure grip ensure precision and safety during every use.
