

Sewage Suction Truck, 10-12 CBM Tank, Cummins Engine

This sewage suction truck is equipped with a 10-12 CBM tank for efficient waste removal. Powered by a Cummins 190hp engine, it ensures reliable performance.

ADDITIONAL IMAGES

Overview

Robust design featuring a high-capacity vacuum pump to ensure hygienic waste transportation.

High-Efficiency Sewage Suction Solution

This sewage suction truck is engineered for heavy-duty municipal and industrial waste management operations. With a flexible tank capacity of 10-12 CBM and a reliable Cummins engine, it delivers high performance and durability in demanding environments. The unit features an advanced vacuum system designed for rapid and thorough waste removal, ensuring operational efficiency and sanitation standards are maintained.

Technical Specifications

Engineered for powerful and reliable performance in municipal and industrial waste disposal.

Tank Capacity

12 CBM

Max Capacity

Overall Dimensions	7730, 8180 x 2500 x 3350 mm
Gross Vehicle Weight	16000 kg
Curb Weight	7805 kg

Cabin

Cab Seating Capacity	3
