

Sewing Machine Electric Motor

This is an electric motor designed to power domestic sewing machines. It features a compact design and includes a speed control foot pedal for easy operation.

Product Overview

Professional Sewing Machine Motor

This electric motor is engineered for high-performance apparel and textile machinery, offering reliable power for industrial and commercial sewing applications. Designed with a compact footprint, the unit integrates seamlessly into various sewing environments. Each motor includes a precision speed-control foot pedal and a standard power plug to ensure quick, hassle-free installation and consistent operational efficiency.
