

Sewing Machine Take-Up Lever Gear

Precision-engineered for sewing machine mechanisms, this take-up lever gear is made from durable black polymer. It features a central bore and mounting holes for secure attachment within industrial sewing equipment.

Product Overview

Precision Take-Up Lever Gear

This precision-engineered take-up lever gear is designed specifically for sewing machine mechanisms. Manufactured from durable black polymer, it ensures reliable performance and longevity in industrial sewing environments. The gear features a central bore and mounting holes for secure, straightforward installation, making it an ideal choice for the repair or maintenance of drive systems.

Technical Specifications

Design Features

- Central bore for mounting
- Optimized gear tooth profile
- Smooth power transmission
- Secure mounting hole configuration

Key Metrics

1 Gear

Component Type

Material

Durable Black Polymer

Application

Industrial Sewing Equipment, Replacement Part, Repair Component
