

SH300 Scooter

This is a gas scooter known for its smooth and responsive performance. The scooter is equipped with a comfortable seat, ample storage space, and modern styling.

Product Overview

Performance and Compatibility

The CFP300-1 is a precision-engineered component designed specifically for compatibility with the SH300 scooter platform. This part is optimized to support the scooter's fuel-injected engine system, ensuring reliable power delivery and consistent performance. Its design focuses on seamless integration, making it an ideal choice for maintenance and performance upgrades.

Technical Details

System Type

PGM-FI • Fuel Injection

Compatibility Model

SH300

Part Number

CFP300-1
