

Shaped Plastic Cookie Mold

This is a plastic mold for creating cookies in the shapes of a flower, star, heart, and diamond. The mold is square and has dividers separating each shape.

Product Overview

Versatile Baking Solution

This durable plastic cookie mold is designed for professional and home kitchens to streamline the pastry preparation process. It features four distinct geometric shapes including a flower, star, heart, and diamond to provide decorative variety. The integrated dividers ensure precise molding, making it an essential tool for high-volume consistent baking.
