

Shiatsu and Rolling Massage Cushion with Heat

This massage cushion provides targeted relief to the back and shoulders. It features rolling and shiatsu massage nodes and integrated heat therapy.

Product Overview

Professional Relief Anywhere

This Shiatsu and Rolling Massage Cushion is engineered to deliver a professional-grade massage experience at home, in the office, or while traveling. Featuring 4 kneading heads for the neck and 4 infrared-heated rollers for the back, it provides targeted relief through multiple massage modes. With a micro-computer handhold controller, users can customize the massage intensity, position, and heat settings for personalized comfort.
