

Shielded Twisted Pair CAT5E LAN Cable

Shielded Foiled Twisted Pair (SFTP) CAT5E LAN cable designed for high-speed data transmission in networking applications. This cable features twisted pairs to reduce interference and a foil shield to provide additional protection against electromagnetic interference (EMI).

Product Overview

High-Performance Networking Solution

This shielded twisted pair (SFTP) CAT5E LAN cable is engineered for robust, high-speed data transmission in professional networking environments. By utilizing advanced shielding technology, it effectively minimizes electromagnetic interference to ensure superior signal integrity for voice, data, and video applications. It is fully compliant with international standards, offering a reliable backbone for critical network infrastructure.

Technical Specifications

Conductor Gauge

- 24AWG
- 26AWG

Conductor Material

- Copper
- CCA

Category

CAT5E

Shielding

SFTP (Shielded Foiled Twisted Pair)

Insulation Material

PE

Compliance and Standards

Industry Standards

- EIA/TIA 568
- IEC/ISO 11801

Certifications

CE, UL, CUL, RoHS 3.0

Logistics

Reel Lengths

- 100M
- 305M
