Product Overview

High-quality dust cover and bump stop components designed for Renault Clio I suspension systems.

Shock Absorber Protection Kit

This high-performance protection kit is specifically engineered for the Renault Clio I, designed to shield shock absorbers from debris, moisture, and road contaminants. Manufactured to strict OE standards, the kit includes a durable buffer block and dust cover to ensure optimal suspension performance and longevity. Built with advanced materials like polyurethane and TPV, these components offer excellent resistance to wear, tensile stress, and extreme temperatures, providing reliable protection for at least 18 months or 100,000 km.

Technical Specifications

Durability & Performance

200000 cycles

Impact Resistance

-40 °C

Min. Operating Temp

3 years

Shelf Life

Material

Polyurethane, Natural Rubber, TPV

Compatibility & Fitment

Reference Numbers

- KYB: 910068
- SACHS: 900058

Compatible Model	Renault Clio I
Production Years	1991-1998
OE Number	8200452699

Commercial Details

Certifications

ISO • IATF

Warranty	1 year
Minimum Order Quantity	100 PCS
