

Short Handle Digging Tool with Serrated Blade

This compact digging tool features a short, ergonomic handle for a comfortable grip. It has a pointed, silver-colored blade with a serrated edge for efficient soil penetration.

Product Overview

Compact Performance

This short-handle digging tool is engineered for precision gardening and outdoor tasks in confined spaces. It features a robust, silver-colored blade with a serrated edge designed to penetrate soil efficiently and cut through roots with ease. The ergonomic handle ensures a comfortable grip, while the lateral extension provides superior leverage and control during intensive digging activities.

Technical Specifications

Design Highlights

- Compact handle length for maneuverability
- Ergonomic grip profile
- High-visibility green and black color scheme

Blade Capabilities

Serrated edge, Pointed tip, Lateral leverage extension, Corrosion-resistant

Usage Applications

Best For

Precision Gardening • Planting • Confined Space Digging • Root Cutting
