

Side-by-Side Refrigerator

This refrigerator features a side-by-side design with two doors on the top and two doors on the bottom. It has a light silver or white finish and a control panel at the top.

Product Overview

Professional Side-by-Side Refrigerator

This modern side-by-side refrigerator is designed for efficient cooling and freezing, featuring a vertically split architecture for better organization. With independent compartments for fresh and frozen items, it provides versatile storage options suitable for professional environments. Its sleek finish and ergonomic handle design ensure both aesthetic appeal and ease of use in daily operations.
