

Side-by-Side Refrigerator with Digital Display

This side-by-side refrigerator features frost-free operation and 3D anti-bacteria technology. It also offers intelligent technology, an LCD display, a direct current fan, and an auto ice maker.

Product Overview

Professional Grade Cooling Performance

This side-by-side refrigerator offers a high-capacity storage solution equipped with advanced frost-free technology for optimal air distribution. It features a sophisticated 361° anti-bacteria system to ensure food safety and longevity. With intelligent computerized temperature control and energy-efficient direct current fans, this unit provides precise climate management while significantly reducing power consumption.

Technical Specifications

Model	BCD-558WS
Rated Input Power	175 W
Daily Energy Consumption	1.49 Kw.h/24h
Star Rating	3

Capacity

Capacity Overview

558 L Total Net Volume	174 L Deep Freezing Volume

Key Features

Advanced Functions

- Frost-free 3D air supply
- Computerized 1-degree precision temperature control
- Automatic ice maker with water shortage alarm
- Energy-saving DC fan motor
- LCD digital display

Sterilization Technologies

Ultraviolet, Ozone, Titanium Photocatalyst, Active Ion, Anion
