

Side-by-Side Refrigerator with LED Display

This side-by-side refrigerator is designed for efficient food storage. It features adjustable shelves, door bins, crisper drawers and an external control panel.

Product Overview

Professional Side-by-Side Solution

This high-capacity side-by-side refrigerator is designed for professional environments where freshness and efficiency are paramount. Featuring 3D anti-bacteria technology and advanced computerized temperature control, it ensures optimal preservation conditions. With its energy-saving direct current fan system and intuitive LED interface, it offers a perfect balance of performance and operational economy.

Performance Metrics

Performance Highlights

560 L Total Net Volume	206 L Freezer Volume	175 W Rated Input Power

Model Specifications

Attribute	Value
Model Number	BCD-560WAA
Energy Consumption	1.49 Kw.h/24h
Star Rating	3

Key Features

Interface & Usability

- High-definition LED display with 120-degree viewing angle
- Precision temperature control within 1-degree fluctuation
- Intelligent temperature-sensing function
- Energy-efficient DC fan cooling

Advanced Technologies

Frost Free System, 3D Anti-bacteria Technology, Computerized Temp Control, Direct Current Fan
