Silicon Carbide Abrasive Mesh

Silicon carbide abrasive mesh is used for sanding and finishing on a variety of materials. The open mesh design resists clogging while providing efficient dust extraction for wet or dry sanding.

Product Overview

Professional Sanding Mesh Solution

This silicon carbide abrasive mesh is designed for high-performance drywall sanding and surface finishing. Its open mesh structure prevents material clogging and facilitates efficient dust extraction for cleaner working environments. Suitable for both wet and dry applications, this versatile abrasive ensures consistent results across a wide range of tasks.

Technical Specifications

Dimensions	280 x 93mm
Available Grit Sizes	P40, P60, P80, P120, P180, P240, P320, P400, P600
Abrasive Material	Silicon Carbide

Logistics

Packing Options

- 10pcs/set shrink pack
- 25 pieces per pack
- 100 pieces per pack

Catalog Item Number	0304093
