

Silver Multi-Spoke Alloy Wheel

This alloy wheel is designed for enhanced vehicle aesthetics and performance. It can support a maximum load weight of 800KG.

Product Overview

High-Performance Multi-Spoke Alloy Wheel

This silver multi-spoke alloy wheel is engineered to enhance both vehicle aesthetics and driving performance. Constructed from lightweight materials, it improves handling and fuel efficiency while offering a modern, sporty appearance. The precision-engineered design ensures optimal fit and balance, with a durable finish resistant to corrosion.

Physical Dimensions

Wheel Diameter

18 inch

Minimum Size

20 inch

Maximum Size

Technical Specifications

Material Benefits

- Lightweight alloy construction
- Corrosion resistant finish
- High-performance durability
- Precision-engineered balance

PCD Range

5*100 - 130

Design & Aesthetics

Finish

Silver • Multi-Spoke • Sporty

Design Style

Modern multi-spoke design for enhanced vehicle aesthetics

Performance

Performance Advantages

Improved Handling, Fuel Efficiency, Optimal Balance
