

Simplex Sprocket for 06B Chains

This simplex sprocket is designed for 06B chains. It has 38 teeth and a taper lock 1210 for secure mounting.

Product Overview

Simplex Sprocket for 06B Chains

This high-quality simplex sprocket is specifically designed for 06B 3/8" BS chains, ensuring reliable power transmission in industrial machinery. It is compatible with a Taper Lock 1210 mounting system, allowing for quick and secure installation. With 38 teeth and precision engineering, this component is built for durability and smooth operational performance.

Technical Specifications

Number of Teeth	38
Pitch	3/8"
Pitch Circle Diameter (PCD)	115.35 mm

Dimensions

Boss Diameter	70 mm
Length Including Boss	30 mm

Compatibility

Mounting Type	Taper Lock 1210
Chain Standard	06B, BS
