

Single Burner Built-In Gas Cooktop

This built-in gas cooktop features a single burner. Its tempered glass surface ensures easy cleaning, while the cast iron grate provides stability for cookware.

Product Overview

Compact Cooking Solution

This single burner built-in gas cooktop is designed for modern kitchens where space is a premium. Featuring a sleek tempered glass surface, it combines aesthetic appeal with easy maintenance. The durable cast iron burner grate ensures stability for cookware, while the front-mounted control knob allows for precise flame adjustment and efficient gas consumption.
