

Single Burner Gas Cooktop

This single burner gas cooktop features a stainless steel top and a multi-ring burner. It is compact and suitable for small kitchens or camping.

Product Overview

Compact High-Performance Cooking

This single burner gas cooktop is engineered for versatility and efficiency in space-constrained environments. Featuring a durable stainless steel top and a precision control system, it offers consistent heat distribution suitable for professional or mobile kitchen setups. Its compact footprint makes it an ideal solution for small kitchens, camping, or auxiliary cooking stations.

Technical Specifications
