

Single Burner Stainless Steel Gas Stove

This single burner gas stove features a stainless steel surface that is easy to clean. It has a powerful blue flame and automatic piezo ignition for efficient and convenient cooking.

ADDITIONAL IMAGES

Overview

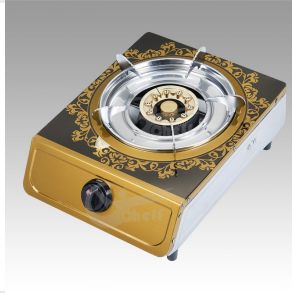

The stove features a decorative top surface and a robust stainless steel frame.

Durable Single Burner Gas Stove

This stainless steel single burner gas stove is designed for high efficiency and long-lasting performance in professional and domestic kitchens. It features a powerful blue flame for rapid heating and an automatic piezo ignition system for reliable, battery-free operation. The easy-to-clean surface and low gas consumption make it a cost-effective and practical solution for various cooking needs.

Key Features

User-friendly control knob allows for precise flame adjustment.

Key Benefits

- Stainless steel surface for easy maintenance
- Powerful blue flame for high-efficiency cooking
- Automatic Piezo ignition system
- Low gas consumption design
- Time and cost-saving performance

Technical Specifications

High-quality brass burner caps ensure optimal heat distribution and durability.

Technical Details

Component	Material/Specification
Panel	Stainless Steel
Burner Cap	Brass
Pan Support	Enamel/Electroplate
Ignition Type	Automatic Piezo

Performance

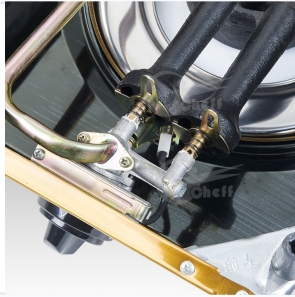

Equipped with a reliable piezoelectric ignition system for easy startup.

Flame & Efficiency

1 qty

Number of Burners

Construction

Durable pan support designed to handle various cookware sizes securely.

Build Quality

Corrosion Resistant, Heavy Duty, Easy Clean, Stable Base
