

Single-Cylinder Diesel Engine 11.63kW 2200RPM

This single-cylinder diesel engine has a rated output of 11.63kW. It operates at a rated speed of 2200 RPM.

Product Overview

Industrial Power Solution

This single-cylinder diesel engine is engineered for reliable performance in demanding industrial and agricultural environments. Built with a robust cast iron construction, it offers long-term durability and simplified maintenance protocols. The unit features direct fuel injection for efficient combustion and a compact form factor that allows for seamless integration into generators, water pumps, and small tractors.

Technical Specifications

Rated Power Output

11.63 kW

Rated Output

Physical Dimensions

Dimension Type	Value
Length/Width/Height	920 * 440 * 750 mm
Base Mount Offset	175 mm

Rated Speed 2200 RPM

Net Weight 160 kg

Features

Key Capabilities Single-Cylinder, Direct Fuel Injection, Cast Iron Construction, Air Cooled, Recoil Start
