Overview

High-Performance Single-Cylinder Engine

The R170A is an enhanced, compact single-cylinder diesel engine engineered for exceptional reliability and long service life. With a 70mm cylinder bore and increased travel, it delivers a robust maximum power of 3.23 kW (5 HP). Its lightweight, vibration-dampened design makes it an ideal power solution for agricultural machinery, inland river ships, and small-scale industrial equipment.

Technical Specifications

Maximum Power

5 HP Max Power	3.23 kW Max Power
--------------------------	-----------------------------

Rated Speed	2600 RPM
Net Weight	60 kg
Cylinder Diameter	70 mm

Key Features

Design Advantages

- Compact and lightweight design
- Low vibration operation
- High power-to-weight ratio
- Cast iron cover plate with elbow pipe
- Extended operation fuel tank

Recommended Applications	Agricultural Machinery, Small Tractors, Generators, Water Pumps, Air Compressors, Inland River Ships
