

Single-Cylinder Diesel Engine

This single-cylinder diesel engine is suitable for agricultural machinery, construction equipment, and small power generators. It features a direct injection system and sturdy cast iron cylinder block.

Product Overview

Robust Single-Cylinder Diesel Engine

The XE190AN (185N) is a robust and reliable single-cylinder diesel engine engineered for versatility and durability. It features efficient direct injection technology for optimal fuel consumption and is built with a sturdy cast iron cylinder block to withstand demanding operational environments. Designed for ease of use, it supports both recoil and electric start systems, making it an adaptable solution for agricultural machinery, construction equipment, and portable power generation.

Technical Specifications

Model Identifier	XE190AN (185N)
Fuel Delivery	Direct Injection
Starting System	Recoil Start, Electric Start

Construction & Design

Cylinder Block Material	Cast Iron
-------------------------	-----------

Application

Recommended Applications

- Agricultural Machinery
- Construction Equipment
- Small Power Generators
