Product Overview

Industrial Single-Cylinder Diesel Engine

The ZS1130M is a professional-grade horizontal, water-cooled, 4-stroke diesel engine engineered for reliable stationary power applications. Featuring a robust single-cylinder design with direct injection technology, this engine ensures efficient combustion and long-term durability. It is an ideal choice for industrial equipment and power generation needs where consistent, heavy-duty performance is required.

Technical Specifications

Performance Metrics

20.1 kW

Rated Output

2200 r/min

Rated Speed

1.593 L

Total Displacement

16 :1

Compression Ratio

Physical Dimensions & Build

Parameter	Value
Bore	130 mm
Stroke	120 mm
Net Weight	d190kg
Engine Type	Horizontal, 4-stroke

Operating Systems

Fuel & Oil Consumption

- Specific fuel consumption: d257.5 g/kw/h
- Specific machine oil consumption: d1.7 g/kw/h

Maintenance Highlights

Daily Check, Air Filter Cleaning, Diesel Fuel Filter Maintenance, Oil Change
