

Single-Cylinder Four-Stroke Engine for Small Vehicles

This is a single-cylinder, four-stroke engine designed for small vehicles. It features an air-cooled cylinder head, electric starter motor, and a side-mounted carburetor.

Overview

High-Efficiency Small Engine Solution

This single-cylinder, four-stroke engine is engineered specifically for small vehicle applications, offering a balance of performance and reliability. Featuring an air-cooled aluminum alloy cylinder head, it ensures efficient heat dissipation and a lightweight design. Equipped with an electric starter and side-mounted carburetor, this unit is optimized for seamless integration into motorcycles, ATVs, and similar small-engine platforms.

Technical Specifications

Engine Type	Single-cylinder, four-stroke
Cooling System	Air-cooled
Casing Material	Aluminum alloy

Features

Starting System	Electric Starter
Fuel System	Side-mounted carburetor

Applications

Compatible Applications	Motorcycles, ATVs, Small Vehicles
