

Single-Cylinder Four-Stroke Motorcycle Engine

This is a single-cylinder, four-stroke motorcycle engine with an air-cooled cylinder head. It features an electric starter motor, a carburetor mounting flange, and various mounting points.

Overview

High-Performance Single-Cylinder Engine

This robust single-cylinder, four-stroke motorcycle engine is engineered for reliable performance and durability. Featuring an air-cooled cylinder head and a horizontally split crankcase, it is designed for efficient heat dissipation and ease of maintenance. The unit comes fully equipped with an integrated electric starter motor and a standard carburetor mounting flange, making it a versatile solution for various motorcycle frame configurations.

Technical Specifications

Cooling System

Air-cooled

Engine Configuration

Single-cylinder, four-stroke

Crankcase Design

Horizontally split

Components & Features

Starter Type

Electric starter

Fuel System

Carburetor

Finish

Silver paint, Black accents
