Product Overview

Industrial-Grade Power

The R180 is a robust single-cylinder, horizontal, 4-stroke diesel engine engineered for reliable performance in agricultural and industrial machinery. Featuring a high-efficiency swirl combustion chamber, this engine is designed to provide consistent output for small-scale power applications like generators and water pumps. Its compact, water-cooled architecture ensures stable operation under varying loads, making it an ideal choice for machinery integration.

Technical Specifications

Model Number	R180
Engine Type	Single cylinder, horizontal, 4-stroke
Combustion System	Swirl combustion chamber
Bore x Stroke	70 x 70 mm
Displacement	0.269 litres
