

Single-Direction Plate Compactor with 5.5HP Engine

This single-direction plate compactor is designed to compact granular soils and crushed aggregate. A 5.5HP engine powers the compacting plate, providing efficient compaction for walkways, patios, and landscaping.

Overview

A robust single-direction plate compactor designed for efficient soil and asphalt compaction.

High-Efficiency Single-Direction Compactor

This 5.5HP plate compactor is engineered for professional-grade compaction of soil, asphalt, and granular materials. Its single-direction vibrating design ensures uniform density, making it an essential tool for road maintenance, landscaping, and confined-space construction projects. Built for durability and ease of use, it features a robust steel base plate and vibration-dampening handles to maximize operator comfort and efficiency.

Performance Metrics

Key Performance Metrics

5.5 HP

Engine Power

Exciting Force

Technical Specifications

Engine Brand	HONDA
Model	C65 Plate Compactor
Plate Size	50 x 36.5 cm

Safety & Operation

Safety Features

- Vibration dampening handle
- Durable steel base plate
- Safety guards for moving parts
- Compact design for confined spaces

Operational Requirements

Eye Protection Required, Ear Protection Required, Outdoor Use Only, Manual Consultation Required

Applications

Suitable Materials

Soil • Asphalt • Granular Materials • Gravel

Primary Applications

- Road maintenance
- Landscaping
- Construction site preparation
- Ditch and trench compaction
