

# Single Gang Light Switch with Sloped Edge and Polished Chrome Finish

This is a single gang light switch with a sloped edge design. It features a polished chrome finish and a rectangular actuator.

## Product Overview

### Premium Single Gang Light Switch

This single gang light switch features a refined sloped edge design combined with a high-end polished chrome finish. Engineered for durability and visual appeal, the square plate design incorporates visible fixing screws for a classic, industrial-inspired look. It is an ideal solution for architectural projects requiring a blend of sophisticated aesthetics and reliable performance.
