

Single-Head Copy Router

This single-head copy router is engineered for precise and efficient routing tasks. It is designed for industrial applications, providing accurate duplication of patterns and shapes.

Overview

Precision Copy Routing

This single-head copy router is engineered for industrial applications, offering robust construction and reliable performance for high-precision routing tasks. It features a user-friendly interface and adjustable settings, ensuring accurate duplication of complex patterns and shapes. Equipped with a powerful motor and durable components, this machine delivers consistent results and long-lasting operation for manufacturing processes requiring high repeatability.

Technical Specifications

Air Pressure	0.8 MPa
Air Consumption	3 L/min
Input Voltage	380V/50Hz
Main-shaft Revolution	11200 r/min
Input Power	0.75 kW
Cutter Diameter	5-6 mm

Physical Dimensions

Overall Dimensions	870 x 700 x 1500 mm
Weight	220 kg

Included Accessories

Standard Package

- Drill bit (2pcs)
- Air Gun (1pc)
- Complete tooling (1set)
- Certificate (1pc)
- Operation Manual (1pc)
- Template Plate (2pcs)

Optional Features

Optional Add-ons

Coolant Device, Customer specified template
