

Single Notebook Ergonomic Holder Tray

This sleek, modern laptop holder tray adds extra desk space. Mounting a laptop in an ergonomic position can help improve posture and reduce neck and eye strain.

Overview

Ergonomic Workspace Solution

This Single Notebook Ergonomic Holder Tray is designed to optimize workspace efficiency and user comfort. By mounting your laptop to an ergonomic position, it helps reduce neck and eye strain while freeing up valuable desk space. Its solid steel construction ensures durability, while built-in ventilation holes promote airflow to keep your device cool during operation.
