

# Single-Phase Electricity Meter

This is a single-phase electronic meter for measuring electricity consumption. It operates at 220V with a current rating of 10(40)A and a frequency of 50Hz.

## Overview

### Precision Energy Measurement

This single-phase electronic carrier electricity meter is engineered for accurate monitoring of electrical energy consumption. Designed for reliable performance, it features a standard 220V operating voltage and a current rating of 10(40)A. It is built to meet rigorous industry standards, ensuring consistent and dependable data for energy management applications.

## Technical Specifications

### Rated Current

<b>10 A</b> Base Current	<b>40 A</b> Maximum Current
-----------------------------	--------------------------------

Rated Voltage	220 V
Frequency	50 Hz
Impulse Constant	1600 imp/kWh

## Compliance & Standards

Compliance Standards	GB/T 17215-2002, DL/T 696-1999
