Product Overview

HVAC and Refrigeration Contactor

This single pole definite purpose contactor is designed specifically for demanding HVAC and refrigeration environments. It offers reliable switching performance for hermetic systems and is built to ensure consistent operation in air conditioning applications. With 100% pre-shipment inspection, this component meets strict quality standards for professional installation.

Technical Specifications

Resistive Amps

40 A

Rated Resistive Amps

Coil Voltage

208/240VAC 50/60Hz

Performance Ratings

Load Ratings Matrix

Voltage (VAC)	FLA (A)	LRA (A)
277	30	180
480	30	150
600	30	120

Installation

Recommended Torque

- CUTST screws: 20 in-lbs
- Lugs: 40 in-lbs
