

Single-Press Fruit and Vegetable Juicer

This single-press juicer is designed for efficient juice extraction from fruits and vegetables. It features a compact design with a feeding tube and transparent pulp container.

Product Overview

Professional Juice Extraction

This streamlined, European-inspired juicer is engineered for efficiency and hygiene in professional settings. Utilizing advanced motor technology, the unit provides strong endurance for high-volume fruit and vegetable processing. Its design ensures superior performance through a precision-engineered alloy blade that effectively separates juice from pulp.
