

Single Screw Air Compressor

This is a single screw air compressor. It is designed for continuous operation and high efficiency.

Product Overview

Industrial-Grade Air Compression Solution

This industrial-grade single screw air compressor is engineered for continuous operation and high efficiency. Featuring a robust construction, it incorporates an advanced control panel and an optimized air compression system for reliable performance. It serves as an ideal solution for various professional industrial applications requiring a consistent source of compressed air.

Technical Specifications

Model Number	FHOGD-22F
Compression Type	Single Screw
Operational Mode	Continuous Duty

Key Performance Metrics

Performance Metrics

22 kW

Power Rating

Features

Key Features

- Robust industrial-grade construction
- Advanced integrated control panel
- Optimized compression system for high efficiency
