Product Overview

Single Shaft Paddle Mixer for Feed Industry

This high-performance single shaft paddle mixer is engineered to achieve high-conformity mixing in animal feed production. Featuring a sophisticated double rotor design with internal and external blades, it maximizes material convection and shear. The unit is designed for operational efficiency with a full-open discharge door that ensures complete emptying with no residue and advanced sealing technology to prevent leakage.

Technical Specifications

Model Specifications

| Model | Power (kw) | Volume (m3) | Batch Weight (kg) |
|----------|------------|-------------|-------------------|
| SHDJ-1.0 | 11 | 1 | 500 |
| SHDJ-2.0 | 18.5 | 2 | 1000 |
| SHDJ-4.0 | 37 | 4 | 2000 |

Key Features

Operational Highlights

- Double rotor design for enhanced convection and shear
- Full open discharge door for zero-residue emptying
- Advanced shaft end sealing with airbag technology
- Large overhaul door for easy cleaning and maintenance
- Quick blade replacement system

PACKING AND DELIVERY

When the container arrive our factory, our shipping operator and delivering equipment will be ready on time to ensure goods shipped based on Sales Order requirement.

For Poultry Feeds Machines for Animal Feeds Manufacturing: Bracket, tray and fully sheathed case are as the main packaging containers for storage equipment shipped in 20ft or 40ft containers. Bracket and pallet are as the packaging container for side panels, reinforcing rib and vane. Goods like trestle stand, roof are packed with simple steel power (similar to bundle packaging), directly shippable. Construction materials such as bolts, welding rod are containerized with closed wooden box.

Professional packaging and containerization ensures safe transport for feed manufacturing equipment.
