

Single Tier Steel Locker

This single-tier steel locker provides secure storage in schools, gyms, and workplaces. It is made from heavy-gauge steel with a powder-coated finish, featuring ventilation slots and a locking mechanism.

Product Overview

Robust Single Tier Storage Solution

This single-tier steel locker is engineered for secure and efficient storage in professional, educational, and recreational environments. Constructed from heavy-gauge steel with a durable powder-coated finish, it provides exceptional resistance against corrosion and daily wear. The unit includes ventilation slots for optimal airflow and is supported by a sturdy base with adjustable feet to ensure stability on uneven surfaces.

Technical Specifications

Material	Heavy-gauge steel
Finish	Powder-coated

Features

Design Enhancements

- Ventilation slots for improved airflow
- Adjustable feet for precise leveling
- Single-tier vertical storage layout

Security	Secure locking mechanism, Heavy-gauge steel construction
