

Sisal Fiber Buffing Wheel for Metal Polishing

This sisal buffing wheel is designed for aggressive cutting and pre-polishing of metals. Constructed from tightly woven sisal fibers, it provides excellent abrasive action for removing scratches, imperfections, and oxidation.

Product Overview

Industrial Sisal Polishing Solution

This sisal fiber buffing wheel is engineered for aggressive cutting and pre-polishing applications on various metal surfaces. Featuring a tightly woven fiber construction, it effectively removes deep scratches, oxidation, and surface imperfections. It serves as a vital first step in surface preparation, leaving metals ready for final finishing stages.

Technical Specifications

Primary Function

Aggressive Cutting • Pre-polishing

Fiber Material

Sisal

Application Compatibility

Stainless Steel, Aluminum, Metal Polishing, Surface Preparation

Compatibility

Equipment Compatibility

- Bench Grinders
- Polishing Machines

Arbor Type

Standard Size
