Product Overview

Professional 6-Drawer Rolling Cabinet

This professional-grade tool storage solution is engineered with double-wall construction to withstand the rigors of industrial workshops and garages. Featuring six ball-bearing slide drawers and a high-capacity 300kg worktop, it provides organized and secure storage for essential tools. The unit is designed for maximum mobility, utilizing 125mm PVC wheels and centralized locking for ease of use and safety in high-traffic environments.
