

Skid-Mounted Concrete Mixer

This skid-mounted concrete mixer is designed for small to medium-sized construction projects. Its rotating drum and internal mixing blades ensure consistent blending of concrete materials.

Overview

JZM350 Skid-Mounted Concrete Mixer

The JZM350 is a robust and efficient concrete mixer engineered for small to medium-sized construction projects. Featuring a skid-mounted design, this machine offers exceptional portability and easy positioning on varied job sites. Equipped with a high-performance rotating drum and internal mixing blades, it ensures consistent, high-quality concrete blending for foundations, sidewalks, and small structures.

Performance Metrics

Productivity

13 m³/h

Max Productivity

350 L

Discharge Capacity

560 L

Feeding Capacity

Operating Specifications

Parameter	Value
Drum No-Load Speed	15 r/min
Max Aggregate Diameter	60 mm
Hopper Average Speed	0.3 m/s

Technical Specifications

Mixing Motor	Y132s-4 (5.5 kW)
Lifting Motor	YEZ325-4 (3.0 kW)
Water Pump Motor	40 JDB-12 (0.55 kW)

Physical Dimensions

Overall Dimensions	3800 x 2050 x 2690 mm
Machine Weight	1990 kg
Tire Size	6.50-16

Features

Key Features	Skid-Mounted, Electric Powered, Portable, Consistent Blending
