

# Skid Steer Loader with 1430 lb Operating Capacity

This skid steer loader has a rated operating capacity of 1430 lb. Its compact design and hydraulic system make it suitable for various tasks.

## ADDITIONAL IMAGES

## Overview

### Compact Multifunctional Loader

This multifunctional skid-steer loader is specifically designed for modern agricultural production where space is limited and flexibility is key. It features a high-performance, low-vibration 4-cylinder engine and an optimized hydraulic system that ensures excellent dynamic compatibility. With reduced dimensions for improved maneuverability and specialized auxiliary components, this machine provides professional-grade performance in tight operational environments.

## Engine and Hydraulics

### Engine Specifications

- Model: Perkins 403C-15
- Power: 33 HP / 33.5 PS
- Configuration: 4-cylinder
- Cooling: Water-cooled
- Features: Low vibration

## Design and Dimensions

Engineering diagram showcasing dimensions and layout of the loader.

### Design Improvements

- Axis distance reduced to 939mm
- Maximum loader height reduced to 3428mm
- Optimized turning radius for flexible operation
