Overview

Versatile Skid Steer Loader

This compact skid steer loader is engineered for high performance in road construction, pavement maintenance, and landscaping applications. Featuring a robust chassis design and a powerful hydraulic system, it offers exceptional stability and maneuverability in tight working environments. With an included auger attachment, it is optimized for drilling and digging tasks, making it a highly productive solution for demanding construction sites.

Engine & Power

Engine Compatibility	Diesel
Hydraulic System	Gear Pump

Design & Comfort

Operator Cabin Features

- Wider cab design (15-20% more space)
- Front door seal
- Anti-collision cage
- Seat belt
- Optional heater
- Optional air conditioner

Control System	Pilot Joystick
