

# Sleek Urban Bus

This sleek bus is designed for urban transportation. It features aerodynamic curves, large windows, and a decorative wave-like graphic.

## Overview

### Modern Urban Transportation

The Sleek Urban Bus is engineered for efficient city commuting with a focus on modern aesthetics and aerodynamic performance. Its spacious design and large windows provide an excellent passenger experience while navigating through urban landscapes. This vehicle combines functional durability with a contemporary look, making it an ideal choice for modern transit fleets.
