Product Overview

High-Efficiency Slim LED Panel

This slim profile LED panel light offers a modern, energy-efficient lighting solution designed for uniform and bright illumination. Built with a durable aluminum frame, it is engineered for longevity and optimal light distribution in professional environments. Its flicker-free output ensures enhanced visual comfort, making it an ideal choice for offices, classrooms, and commercial spaces.

Technical Specifications

Luminous Efficacy

100 lm/w
Efficacy

Input Voltage	AC85-265
Color Temperature (CCT)	3000-6000K
CRI (Ra)	80
LED Light Source	SMD2835
Driver Type	Isolate or Non-Isolate

Operational Details

Working Lifetime	35000 Hours
Operating Temperature	-20 to 50
Warranty	3 Years

Construction & Installation

Lamp Body Material	Aluminum
Installation	Embedded

Certifications

Certifications	CE, EMC, LVD, RoHS
----------------	--------------------

Applications

Recommended Applications

- Residential / Home
- Office
- Classroom
- Supermarket
- School
