

Slim Recessed LED Downlight

This recessed slim downlight features a die-cast aluminum construction. Its slim profile allows for installation in tight spaces and provides uniform, energy-efficient illumination.

Product Overview

Sleek and modern aesthetic design suitable for residential and commercial ceilings.

Slim Recessed LED Downlight

This premium recessed slim downlight is constructed from high-quality die-cast aluminum to ensure excellent durability and efficient heat dissipation. Engineered for versatility, its ultra-slim profile is specifically designed for installation in tight ceiling spaces, making it perfect for both residential and commercial projects. Featuring advanced LED technology, it provides uniform, energy-efficient illumination while effectively preventing light leakage from the back.

Dimensions & Models

Model	Power	Flux	Dimension	Hole Size
L-DL-0010-3W	3W	145lm	!85*25mm	!75mm
L-DL-0010-6W	6W	330lm	!120*25mm	!105mm

Product Features

Durable die-cast aluminum construction ensures efficient heat dissipation and long-term reliability.

Key Benefits

- Supreme quality LED
- Easy installation
- Low maintenance cost
- Anti-light leakage design
- Long lifespan

Applications

Home, Shopping Mall, Restaurant

Electrical Data

Electrical Characteristics

- Voltage: 100-240V
- Dimmable: No
- Power Factor: >0.4 - 0.5
- Color Temperatures: 3000K, 4000K, 6500K
