Product Overview

Professional Low Speed Juicing Technology

This slow masticating juicer utilizes an advanced Low Speed Technology System (LSTS) to extract the maximum amount of nutrients, vitamins, and enzymes from your ingredients. Operating at a gentle 120rpm, it minimizes heat and oxidation to ensure the highest quality juice for fruits, vegetables, leafy greens, and wheatgrass. Designed for consistent reliability in continuous settings, this appliance is a versatile addition to any professional kitchen or health-focused environment.
